Financial Outturn 2024/25

Report of the Director – Finance and Corporate Services

Cabinet Portfolio Holder for Finance – Councillor D Viridi

1. Purpose of report

- 1.1. The purpose of this report is to outline the year-end financial outturn position for 2024/25, linked to the closure of accounts process and previous financial update reports. This report has already been presented to Corporate Overview Group in June, with no significant issues raised.
- 1.2. To summarise, the revenue budget has an overall revenue efficiency position of £2.407m and the Capital Programme overall underspend position of £5.109m. The £2.407m is allocated for significant risks for 2024/25 onwards including land acquisition for carbon offsetting, Local Government Reorganisation, West Bridgford Town Centre regeneration and Simpler Recycling. The capital underspend is largely being carried forward for the completion of existing projects.
- 1.3. The draft Statement of Accounts has been prepared and published by 30 June 2025 in accordance with statutory deadlines.

2. Recommendation

It is RECOMMENDED that Cabinet:

- a) notes the 2024/25 revenue position and efficiencies identified in **Table 1**, the variances in **Table 2** (and **Appendix A**);
- b) approves changes to the earmarked reserves as set out at **Appendix B** along with the carry forwards and appropriations to reserves in **Appendix E**;
- c) approves the capital carry forwards outlined in **Appendix C** and summarised in **Appendix F**; and
- d) notes the update on the Special Expenses outturn at paragraph 4.20 and in **Appendix D**.

3. Reasons for Recommendations

To accord with good financial governance and the Council's Financial Regulations.

4. Supporting Information

4.1 The Council is required to categorise its income and expenditure as either revenue or capital. The General Fund account deals with the Council's revenue income and expenditure, where spend is incurred on day-to-day expenditure or on items used within the year. Capital income and expenditure is included in the Capital Programme. The Financial Outturn, for both revenue and capital, is presented below.

Revenue Outturn

4.2 The net revenue position in Table 1 below shows a transfer to reserves of £4.742m, originally planned to be a transfer to reserves of £2.202m (adjusted to £1.781m reflecting carry forward commitments from 2023/24) a net increase of £2.961m.

4.3 The economic environment continues to be challenging, which impacts both residents and businesses and ultimately creates risks with regards to the Council's budget. The table below shows a positive outcome given this economic environment. The Council has continued to identify service efficiencies during the year to balance the additional pressures and has overachieved against the Transformation and Efficiency Plan (TEP) target of £0.733m (para 4.15) by £16k. It is worth noting the service budgets have an efficiency position of £1.933m, with increased Business Rates income and additional grants accounting for further efficiencies of £0.407m and £0.633m respectively to give a total of £2.962m.

4.4 The Quarter 3 report presented to Cabinet on 11 March 2025, reported projected efficiencies of £2.164m and approved reserve appropriations to this value, which are included in the final carry forwards and reserves totalling £2.962m shown in **Appendix E**.

- 4.5 The main revenue variances are shown in **Table 2** (with more detail at **Appendix A**) some of which are requested to be carried forward for commitments in 2025/26. In the case of adverse variances, if these trends do continue then it will place further pressure on the budget and further budget efficiencies will need to be identified.

Table 2: Main Items Impacting on the Current Revenue Budget

Main Variances		£'000
Adverse Variances		
Planning	£105k Planning fees income reduced due to reduction in demand from new developments, £68k enforcement costs and £207k appeals (covered by release from the Planning Appeals Reserve)	380
Property	£48k salaries unable to be capitalised due to capital programme reprofiling, £55k tree survey repair works (covered by release from reserves) £29k utilities at Rushcliffe Arena	133
Benefits	Rent increase from supported housing provider (covered by release from reserves) however this is an ongoing budget pressure	205
Depot & Contracts	£56k Edwalton Golf Course due to extended closure following adverse weather conditions in the spring and planned food mitigation works, £83k fleet and tanker hire (due to ageing fleet, vehicles have now been replaced). Other costs including utilities, tyres and other equipment	254
Total		972
Favourable Variances		
Financial Services	Higher rates of interest and higher investment balances £1.1m, Contingency not required £0.5m and other minor savings	(1,639)
Depot & Contracts	£148k diesel (lower prices and HVO savings), £109k Parkwood Leisure Contract, £98k car parking (£25k increase in income, £73k saving on contract), £49k Eastcroft depot rent savings on contract renewal, £22k salary savings (net of agency cover)	(426)
Environmental Health	£157k Homes for Ukraine funding (request to transfer to reserves), £70k Taxi licence income, £43k Idox saving due to not moving to cloud, £25k costs recovered (works in default £16k and housing checks on behalf of other authorities)	(295)
Streetwise	£25k salary savings (net of agency), £48k consumables and materials, £31k additional income, £21k fuel	(125)
Planning & Growth	£80k agency budget not required, £49k Idox saving due to not moving to cloud	(130)
Revenues & Benefits	£83k Council Tax costs recovered, £63k Housing Benefit overpayments	(145)
ICT	Delays on less essential projects to be carried forward to deliver the projects	(108)
Total		(2,868)
Technical Adjustments	See paragraph 4.6 below	(452)
Other minor variances		(59)
Total Variances		(2,407)

- 4.6 In 2024/25 the Council has adopted IFRS 16 Leases, as required by the Code of Practice for Local Authority Accounting in the United Kingdom. The main impact of the new requirements is that for any payments made by the Council under a lease arrangement are removed from in year expenditure and replaced with an asset (and offsetting liability) on the Balance Sheet in recognition of the right to use for a period of more than one year. The technical adjustment in Table 2 reflects the removal of the expenditure on lease payments which has now been replaced by a charge to Minimum Revenue Provision (MRP) and interest (reflected in variance to MRP in Table 1).
- 4.7 We continue to report on the reduced capital value in the Council's treasury investments and the fact there is a statutory override, which prevents this being a cost to the taxpayer, now extended to 2028/29. As markets change so do the values. To be prudent, the Council has created a reserve totalling £1.173m to mitigate the potential impact on the General Fund and it is proposed that this is topped up by a further £0.137m from 2024/25 efficiencies to give a total reserve of £1.31m. This is reported and closely monitored by the Governance Scrutiny Group.

Carbon Reduction

- 4.8 The Council's Policy and Regulation Framework was updated and approved at Cabinet on 14 May 2024. Within the Framework, there is a requirement for some carbon offsetting through the establishment of a range of habitats to promote ecological recovery. As such, a Climate Change reserve was created and as at 31 March 2025 has a balance of £2.492m (£1.5m of which for land acquisition). The reserve is required to deliver carbon offsetting targets.

4.9 Local Government Reorganisation

The full cost of undertaking Local Government Reorganisation (LGR) is unknown; however, this is expected to be significant. At Quarter 3 it was proposed to increase the Organisation Stabilisation Reserve by £0.2m from budget efficiencies. At outturn it is proposed to set aside a further £0.461m (£0.661m in total) from 2024/25 budget efficiencies. Updates on the progress of LGR will be made to Full Council during the year with formal submission of the Council's preferred option due on 28 November 2025 and the Government's decision thereafter (likely to be in early 2026).

4.10 Simpler Recycling

In January we reported to Cabinet the financial pressures that were accruing from Simpler Recycling. The funding is not expected to cover the costs of implementing the scheme and by 2029/30 there is a net annual budget pressure of £0.318m. A Simpler Recycling reserve has been created to ring fence the funding until they are required and to allow the appropriation of any future underspends towards the budget pressure.

4.11 Transformation and Efficiency Plan (TEP)

The Council's Transformation and Efficiency Plan (TEP) is designed to meet emerging financial challenges. In 2024/25 the savings target was £0.733m, with the three most significant being income from Green Bin Collection from

increased fees (£0.238m), income from car parks due to increased fees and introduction of charges at Bingham (£0.214m) and leisure management contract savings (£0.228m). Each of these has been met and exceeded in year, some smaller target shortfalls offset these; however, total TEP savings achieved for 2024/25 was (£0.749m), which overall was £16k above target.

Reserves

4.12 There are a number of movements in revenue reserves largely agreed as part of the budget setting process and budget monitoring reported during 2024/25. A net transfer to earmarked reserves of £3.340m comprises: £10.642m transferred to reserves from revenue less £7.302m transferred from reserves (£5.9m revenue and £1.402m capital). The overall net movement on revenue reserves are detailed at **Appendix B**. The key points to note are:

- £1.509m New Homes Bonus (NHB) income is transferred in and appropriated to Regeneration reserve £0.759m and Climate Change £0.750m (included in the figures below).
- Other 'Transfers Out' or use of reserves total £5.793m of these, £2.189m are movements between reserves to redirect funds between reserve balances such as the Collection Fund and Freeport to new pressures i.e. Simpler Recycling and carbon offsetting and £1.402m used to fund capital projects, mainly vehicle replacements and Cotgrave Leisure Centre enhancements. Of the remaining £2.202m, significant items include: £1.178m from the NHB reserve used to offset the Minimum Revenue Provision (MRP - this is a requirement by legislation to make a charge to the revenue budget for the recovery of internal borrowing for capital expenditure) and £0.421m out from the Organisation Stabilisation Reserve for approved carry forwards from 2023/24.
- Other 'Transfers In' total £9.133m increasing reserves. The transfers between reserves as above total £2.189m. Other significant items comprise: £3.432m efficiencies to cover carry forward and reserve commitments (**Appendix E**); £1.124m for Organisation Stabilisation, £1.061m Regeneration and Community Projects reserve and £0.850m for Climate Change reserve to support carbon reduction initiatives going forward

Specific Reserves

4.13 Commentary on earmarked reserves:

- The NHB reserve balance of £8.153m is used to fund internal borrowing in relation to capital projects (MRP Minimum Revenue Provision).
- The Organisation Stabilisation Reserve Balance of £4.368m will partly be used to fund the carry forward requests of £99k and the transfers to reserves of £1.237m (**Appendix E**). This includes the provision for current pressures such as LGR, climate change and Simpler Recycling.

- The Climate Change reserve balance of £2.492m includes £1.5m towards land acquisition for the Council's commitment to achieve carbon neutral by 2030.
- LGR is to be funded from the Organisation Stabilisation Reserve. Costs are unknown at this stage but are anticipated to be significant. £0.2m was added to the reserve in Quarter 3, and a further £0.461m is proposed to be added from 2024/25 underspends.
- A new reserve has been created for Simpler Recycling, this is to be created using £1.020m from the Collection Fund reserve, which is no longer required and topped up with £0.230m from grant income for this scheme received during 2024/25.

4.14 Overall, whilst the level of Earmarked Reserves is a healthy £24.287m (23/24 was £20.947m) there are ongoing risks, due to inflationary cost pressures, the rising cost of living, delayed local government reforms, the onset of LGR, and long-term funding uncertainties. Additionally, future capital funding is a concern, as illustrated in the Medium Term Financial Strategy (MTFS), with reserves expected to decrease to approximately £15 million by 2029/30. The Council aims to reduce carbon emissions and promote Borough growth, which will require funding from reserves. The repayment of internal borrowing (MRP) has been reliant on NHB receipts, whilst this has been extended for one additional year for 2025/26 these will then cease with no replacement currently on the horizon. The General Fund balance of £2.604m accords with the Council's approved MTFS.

Revenue carry forward requests and Reserve Commitments

4.15 The Council's robust financial position enables it to fund service demand or cost pressures not identified in the budget. Some of these have already been mentioned above (e.g. Carbon Offsetting, LGR and Simpler Recycling) but other pressures include regeneration of West Bridgford Town Centre, and replacement of the Council Chamber AV system. Requests for the use of reserves in 2025/26 (from 2024/25 efficiencies) to support continuing cost pressures and delivery of the Council's priorities are shown in **Appendix E**.

Capital

4.16 The year-end Capital Programme provision totalled £12.154m (see **Table 3 and Appendix C**). This comprised of an opening budget of £11.079m, plus carry forwards of £3.405m and adjustments of £3.417m and rephasing of budgets to 2025-26 (approved in Quarters 1-3) of £5.747m. Actual expenditure in relation to this revised provision totalled £7.045m (58% of the revised budget) a variance of £5.109m, £4.308m of which is requested to be carried forward for schemes that have been rephased from 2024/25 and the Council has committed to delivering in 2025/26.

The main underspends are as follows:

- Land Acquisition Carbon Offsetting £1.5m – this budget was created from efficiencies in 2023/24 £0.425m and 2024/25 £0.698m and £0.377m from NHB reserve. This will allow the Council to implement the Carbon Offsetting Framework as approved at Cabinet 14 May 2024. This budget needs to be carried forward to pursue opportunities in 2025/26.
- Home Upgrade Green Energy Grants (HUG2) £0.727m – this scheme is 100% grant funded and managed by the East Midlands Net Zero Hub with works carried out by EON, and RBC acting only as agent with no control over the outcome. The underspend represents the amount of grant available which has not been utilised. This was due to external delays to the inception of the scheme and grant conditions meaning it was only applicable to off-gas properties within certain income boundaries of which there were limited suitable applicants identified.
- Rushcliffe Oaks Crematorium – £0.488m – £0.550m was carried forward of this £0.150m was for potential VAT liability relating to partial exemption, this was not breached and can be released as a saving. The remaining £0.338m is to be carried forward for enhancements following post-opening feedback.
- Cotgrave and Keyworth Leisure Centre Enhancements £0.398m – due to rephasing of the scheme, capital completion of Cotgrave was 12 May 2025 and Keyworth works commenced 28 April. Budget is required to be carried forward to cover these works.
- Disabled Facilities Grants – £0.297m, this has been committed but works not yet complete, budget is required to be carried forward. It is noted that a sustainable longer-term solution is required as both demand and costs

rise. The Council continues to lobby Central Government for additional and redistributed grant allocations. An additional £0.113m was received in 2024/25 and this forms part of the carry forward, this increase will continue into 2025/26 There are longer term pressures on this service and the need to support the most vulnerable in our community, an additional £0.2m has been allocated from 2024/25 efficiencies to support this budget.

- Contingency £0.286m – in addition to the budget of £0.150m and amount of £0.180m was carried forward from 2023/24 with only £28k allocated to Bingham Car Park machines and £16k for air conditioning at Boundary Court allocated in year. This will be carried forward.
- Bingham Arena Enhancements – £0.250m set aside for post opening enhancements, requires carry forward.
- Information Systems Strategy £0.218m – this is relating to a number of projects including the Council Chamber AV system replacement and Bartec (vehicles tracking) upgrade. Due to resource issues within the team the projects have been rephased and therefore require the budget to be carried forward.
- Vehicle Replacement – £0.197m, mostly relates to pest control vans which will be delivered in 2025/26, carry forward is required.

A summary of the main variances can be found in **Appendix E and F** including savings of £0.986m, acceleration of £0.176m, overspends of £9k, and a net carry forward request of £4.308m. Details of all variances can be found in **Appendix C**

- 4.17 **Appendix D** shows the Outturn position on the **Special Expenses** budget. Budgets within the Special Expenses area are also exposed to cost-of-living risks and the impact on household disposable income. The Special Expenses outturn budget deficit for West Bridgford is £50k. The total net deficit in the notional West Bridgford Fund as at 31 March 2025, is £0.184m comprising of an opening deficit of £0.134m adjusted for the in-year deficit of £50k. The budgets are set using estimates and the timing of expenditure can result in variances against the budget. The main variances are related to reduced income from Gresham and Sir Julian Cahn (undergoing refurbishment) and has resulted in the £50k deficit. The budget going forward will aim to ensure deficits are recovered; and post refurbishment it is hoped that income from facility hire will increase.

Financial Outturn Conclusion

- 4.18 Despite the financial challenges experienced, prudent budgeting has negated the need to draw on reserves or to externally borrow. Inflation has now begun to fall; however, there remains a risk to both Council expenditure and to income receipts as pressures remain on household disposable income. The impact of LGR, local government funding reforms and other government policy initiatives such as Simpler Recycling are likely to continue to pose challenges to the MTFs.

- 4.19 The Council remains committed to driving efficiency and innovation. The Transformation and Efficiency Plan, encompasses medium-term projects that consistently challenge Council processes and drive income streams. In light of the additional pressures identified, transformation is an essential requirement and the biggest transformation project, LGR, is on the horizon.
- 4.20 Whilst the Council currently has a relatively healthy reserves balance, this is a finite resource, and reserves will diminish over time. With the aforementioned challenges there remains the need to maintain healthy reserve balances. Reserves are necessary to insulate the Council against significant financial risks and enable the Council to deliver its Corporate Priorities, to improve services and invest and grow the Borough.
- 4.21 The year-end Financial Statements are subject to audit by Mazars and are anticipated to be considered by the Governance Scrutiny Group in September 2025.

5. Alternative options considered and reasons for rejection

There are no other options identified, subject to the views of Cabinet.

6. Risks and Uncertainties

- 6.1 Failure to comply with Financial Regulations in terms of reporting on both revenue and capital budgets could result in criticism from stakeholders, including both Councillors and the Council's external auditors.
- 6.2 The transfer of the net surplus to reserves will relieve pressure on Council budgets such as system upgrades and service pressures arising post budget setting (as discussed in paragraphs 6.3 and 6.4 below) and carry forward of budget efficiencies will assist the Council to meet its priorities to support and grow the Borough.
- 6.3 LGR may impact as early as 2027 or 2028, inevitably if organisational objectives change then finances will have to shift. The cost of implementing changes both financially and regarding attraction and retention of staff during the consultation and transition period are currently largely unknown but are expected to have a significant impact.
- 6.4 Increases in employers National Insurance contributions will not be fully met by grant income to mitigate this in 2025/26 and it is unknown if there will be further grants in future years. Further costs may also be passed to the Council via rising contract costs as suppliers seek to recover their own increased costs.
- 6.5 Changes in Central Government policy can impact the amount and timing of Business Rates received, such as adjustments to small Business Rates Relief. Additionally, there is a potential risk from Government reform, although significant changes are not expected before the 2026/27 period.
- 6.6 There is an ongoing risk from inflation affecting the Council's expenditures, including fuel and utilities, as well as income from fees and charges. This

situation is being closely monitored and, if necessary, will be incorporated into regular financial reporting to Cabinet and Corporate Overview Group.

6.7 Recruitment continues to be challenging in the sector and this increases the pressure on the pay budgets and agency costs and the ability to deliver high quality services.

6.8 The Council must be adequately protected against such risks, necessitating a sufficient level of reserves. Additionally, the Council should have the flexibility to utilise reserves for projects with potential benefits or when there is a shift in strategic direction. The Council remains committed to maintaining financial resilience during these challenging times.

9. Recommendation

It is RECOMMENDED that Cabinet:

- a) notes the 2024/25 revenue position and efficiencies identified in **Table 1**, the variances in **Table 2** (and **Appendix A**);
- b) approves changes to the earmarked reserves as set out at **Appendix B** along with the carry forwards and appropriations to reserves in **Appendix E**;
- c) approves the capital carry forwards outlines in **Appendix C** and summarised in **Appendix F**;

- d) notes the update on the Special Expenses outturn at paragraph 4.20 and in **Appendix D**.
