

EQUALITY IMPACT ASSESSMENT FORM

Interim review of the hackney carriages and private hire licensing vehicles policy 2017-2022.

The proposed Policy is fundamental to protecting public safety and keeping people from harm. It also wholly supports the Council's wider priorities and outcomes associated with promoting health, managing the environment and helping people to help themselves in order to improve community resilience. The policy has been revised early due to legislative and technical changes in this area as outlined in the report.

Information used to analyse the effects of equality:

The policy has been subject to public consultation and with members. In particular consultation has taken place with existing taxi operators and drivers. The consultation period was launched on 21 September 2019 and closed on 23 October 2019. There was no comment on equality impacts.
